

GOURAV R

BACKEND DEVELOPER (DJANGO | PYTHON | SQL)

Bengaluru, Karnataka | +91 9916259010 | gkprof1107@gmail.com

[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Backend developer with hands-on experience building Django applications, REST APIs, and database-driven systems, backed by a 9.2 CGPA in BCA. Skilled in using AI-assisted development tools (Copilot, Cursor, Claude) to speed up debugging, optimize code, and ship production-ready features faster.

TECHNICAL SKILLS

- **Languages & Frameworks:** Python, Django, Django REST Framework (DRF), JavaScript, HTML, CSS
- **Databases:** SQL, PostgreSQL, SQLite, Firebase (Auth & Firestore)
- **Generative AI:** Retrieval-Augmented Generation (RAG), LLM-based applications
- **Tools & Practices:** Git, GitHub, REST API design, Token Authentication, n8n workflow automation
- **AI-Assisted Development:** ChatGPT, GitHub Copilot, Claude, Cursor, Perplexity

PROJECTS

Blog App | [GitHub](#) *Django, SQLite, Bootstrap, Authentication*

- Developed a full-featured blogging platform with post creation/editing, user authentication, and a commenting system, using a production-ready Django project structure.

Todo REST API | [GitHub](#) *Django REST Framework, Token Authentication*

- Built a RESTful Todo API with complete CRUD operations, token-based authentication, and pagination, with API documentation for consumers.

Divine Guidance - AI Spiritual Guidance App | [GitHub](#) *Python, Django REST Framework, RAG, HTML/CSS/JS*

- Built an AI-powered guidance app using a Retrieval-Augmented Generation (RAG) approach that returns situation-based guidance grounded in the Bhagavad Gita, Quran, and Bible, with exact scripture references.
- Designed a structured response flow (situation, relevant teaching, reflection, sources) with a Django REST backend and a clean, minimal single-page frontend.

PROFESSIONAL EXPERIENCE

Freelance Backend Developer *Jan 2024 - Present*

- Designed and deployed multiple Django backend applications for college peers and seniors, including authentication systems, dashboards, and CRUD workflows.
- Built REST-style APIs and relational database models, managing source code and collaboration using Git and GitHub.
- Applied AI-assisted development tools to speed up debugging and improve code quality across projects.

EDUCATION

Bachelor of Computer Applications (BCA) *Aug 2023 - Jun 2026*

Sri Maata Degree College, Hospet - Vijayanagara Sri Krishnadevaraya University | CGPA: 9.2 / 10
Final semester examinations completed June 30, 2026; result awaited.

AWARDS & ACTIVITIES

- Winner - Chakravyuha Event, BITM University, Bellary (July 20, 2024)
- Mentor - Ignitron 2K25 (CodeRush); guided the winning team at a 24-hour national-level hackathon on AI in Healthcare, GM University (Dec 4, 2025)

LANGUAGES

English, Hindi, Marathi, Kannada
